

Solid Glass: 2,195 Stars for AI Design

2,195 stars · MIT · checked 2026-10-24

WHAT IT IS

Solid Glass is a free, MIT-licensed AI design system by DeepLethe that adds a refined, subtle glass aesthetic to web applications, enhancing user interaction with complex AI data.

GET IT RUNNING

```
npx shadcn@latest init
npx shadcn@latest add deeplethe/solid-glass/solid-glass
@import "tailwindcss"; @import "tw-animate-css"; @import
"shadcn/tailwind.css"; @import "./solid-glass.css"; (Remove
conflicting :root and .dark color variables)
```

MAKE THESE 3 THINGS

- AI customer support dashboards with real-time updates
- Data visualization tools with subtle dimensionality
- AI assistants providing continuous updates and reminders

SKIP IT IF

Not for non-web platforms like presentation software. Does not provide ready-made templates for all application types.
